

Illustrative Art

S. Martinek

Complementary: Business services: Creative Illustrative Arts

Driving Question: How can I use arts and crafts to explore my artistic side?

Course Description:

In this complementary course, students will explore their interests and passions, while being engaged in various creative and crafty activities. Students will design their projects around challenges provided to them. Students will engage in artistic projects with a primary focus on pencil drawing techniques and composition. Students will also explore design, color, and pattern. We may also get to paint a ceiling tile and assist our drama team with designing and creating props for this year's production. Come prepared to tap into your creative side!

Career Possibilities: Business, Communication

The primary expectation is for students to participate with a positive attitude and effort. Students will gain the basic skills and insights necessary to create drawings and paintings that are both accurate and expressive. Students will also utilize this time to create props for the drama presentation.

Skills:

- Learn the 7 elements of art and how they relate to our projects
- Pencil drawings and painting with different styles of brushes and paints.
- Design - art projects including a ceiling tile and props
- Communication - asking for assistance/explain assignments
- Initiative - Be prepared for class/focus
- Safety - Using tools and materials in a safe manner

CTF Outcomes:

These are the areas we are focusing on in this complementary

Personal Connections

- CTF is exploring interests, passions and skills while making personal connections to career possibilities.

Designing and Creating

- CTF is planning, creating, appraising and communicating in response to challenges.

Collaboration and Personal Growth

- CTF is working independently and with others while exploring careers and technology.
